Wild Turkey in Heat

This cocktail is a bourbon and orange sour with the almond sweetness of the orgeat and the kick of habanero. The name originated during a family ski

trip to Steamboat Springs a number of years ago. We would always eat at the Tugboat Saloon on our first night and, so, cold and tired, I spotted a bottle of Wild Turkey 101. She replied, "Yes." To which I said, "I'll have that neat." She then repeated my order, "A Wild Turkey neat." Now, from the other end of the table, with great incredulity, our teenage daughter asked: "What's a Wild Turkey in Heat?"

- 2 oz. Wild Turkey 101
- 2 $\frac{1}{2}$ oz. Orange juice
- $\frac{3}{4}$ oz. Lemon juice
- $\frac{1}{4}$ oz. orgeat

Cheers!

Lemon or Lime Sour

I prefer a ratio of 2:1 juice to simple syrup. I have seen 1:1 and 3:1. If you like sour/tartness, reduce the simple syrup and/or add more juice. If you like it sweeter, do the opposite. Also, since fruit varies in flavor, always taste your mix and adjust accordingly.

If I am making only 1 or 2 drinks, I just use a 2:1 juice :

simple syrup. When we are entertaining, I make up a bottle that morning. It will begin to degrade after a day.

- 1 cup Simple syrup
- Either:
 - 2 cups fresh lime juice or
 - 2 cups fresh lemon juice
- 4.5 Tbls. pasteurized egg white – optional see Note

1. Combine all ingredients in a pitcher or bottle.
2. Add additional fruit juice or simple syrup to taste.
3. It is ready for immediate use and will keep, refrigerated for a day.

Note: Adding egg white will add depth and create very frothy drinks when shaken or blended. You can substitute 1 $\frac{1}{2}$ fresh egg whites if your not worried about salmonella.

Sweet and Sour Mix

This puts anything you could buy in a bottle to shame. If you like sour/tartness, reduce the simple syrup and/or add more juice. If you like it sweeter, do the opposite. Also, since fruit varies in flavor, always taste your mix and adjust accordingly.

- 1 cup Simple syrup
- 1 cup fresh lime juice
- 1 cup fresh lemon juice
- 4.5 Tbls. pasteurized egg white – optional see Note

1. Combine all ingredients in a pitcher or bottle.
2. Add additional fruit juice or simple syrup to taste.
3. It is ready for immediate use and will keep, refrigerated for weeks.

Note: Adding egg white will add depth and create very frothy drinks when shaken or blended. You can substitute 1 $\frac{1}{2}$ fresh egg whites but your mix will not keep longer than a day or two.
