Full Sail

Kids love special drinks as much as adults. Especially if it's made just for them. The carbonated coconut water is a bit over the top, but once again, with a little effort the kids feel really special. I used an an iSi Whipper and a CO2 charge since my siphon is full of water. You can also put still coconut water in the shaker with the rest of the ingredients and then top the glass with a dash of plain carbonated water.

If you use falernum, it has an ABV of 10% so your finished drink will have an ABV of $\frac{1}{2}\%$. If that's too high, substitute the easy ginger lime syrup below.

- $1\frac{1}{2}$ oz. Fresh lime juice
- $\frac{1}{2}$ oz. Falernum or Ginger Lime Syrup – see below
- $\frac{1}{2}$ oz. Orgeat
- $\frac{1}{2}$ oz. Simple Syrup

- 4 oz. Carbonated Fresh coconut water or carbonated water
1. Add the first 4 ingredients to a shaker with ice and shake to chill
 2. Pour shaker, unstrained, into chilled Collins glass and top with more ice
 3. Add the carbonated coconut water to fill
 4. Stir and garnish with lime wheel or wedge

Gin & Blood Orange Tonic with Cucumber Cardamon Foam

This drink is based on Kathy Casey's Luxury Gin & Tonic Cocktail with Cucumber Lime Foam. (Follow her on Kathy Casey's Liquid Kitchen). I did not have all of the ingredients she called for and, besides, I generally like to mess with recipes! This cocktail demonstrates a number of things:

- How you can substitute ingredients
- How to make your own ingredients when necessary
- Making a flavored simple syrup with fresh ingredients
- Making a rapid infusion to create a syrup
- Making a rapid infusion to create all new bitters flavors
- How you really need an iSi Whipper if you're serious about craft cocktails at home.

Total active prep time for this cocktail was about 20 minutes. Inactive prep time was 4 hours. Without an iSi Whipper, there would be no foam and the infusions would have required 12-24 hours. Bottom line, get yourself 2 or 3 iSi Whippers.

You can purchase Dry Blood Orange Soda (Dry is the brand name), and Monin Cucumber Syrup. I used fresh blood oranges to make blood orange syrup and used that to make a blood orange soda. I also added cardamon to the foam, cucumber to

the simple syrup and substituted Luxardo for the Monin Bitters. This cocktail doesn't work without the foam. With it, the drink comes alive with herbal notes from the gin and bitters, the citrus of the orange and lime and of course, the cucumber and cardamon.

Sazerac is my rye whiskey of choice. Made at the Buffalo Trace Distillery, it is spicy and sweet with flavors of orange peels, pepper and allspice. It blends very well with the Italian Vermouth.
